

Drug List – Preventive Items and Services Offering - 2024

The Patient Protection and Affordable Care Act (PPACA) imposes a number of insurance reforms and mandates including a requirement to cover certain *preventive items and services* at 100 percent and ensure these items and services are not subject to deductibles or other cost-sharing limitations.

The following list of preventive medications should be used as a guide. It cannot be considered a comprehensive listing of medications available or covered without cost-sharing. Coverage of any of the listed medications (including over-the-counter (OTC) medications) requires a prescription from a licensed health care provider.

The availability or coverage of these medications without cost-sharing may be subject to criteria established by the terms of the health plan.

This list is subject to change as PPACA guidelines are updated or modified.

Please note: coverage of medications at \$0 cost share is dependent on the list of medications covered by your drug formulary.

Medicine Category and Who is Covered	Examples of Medicines Covered
Aspirin Persons of any age	Generic, single-entity aspirin 81 mg
Breast Cancer – Primary Prevention Persons ≥ 35 years who meet criteria. <i>(Only one of the available options described is chosen for coverage by a prescription drug plan)</i>	Generic tamoxifen, raloxifene, anastrozole, exemestane, and brand Soltamox are all covered at POS for \$0 member-share without review. For other products not covered at \$0 cost-share at the point of service, a member- or prescriber-initiated copay exception review is available.
Contraceptive Methods Persons of any age capable of pregnancy	<p><i>Brand name contraceptives with a generic equivalent are \$0 cost share only when the prescriber indicates the brand product must be dispensed or generic is not available.</i></p> <p>Covered products include all FDA-approved 16 contraceptive methods available through the pharmacy benefit, including: OTC contraceptive methods (condoms, spermicides, etc.), oral contraceptives (including emergency contraception), and contraceptive devices.</p> <p><i>*coverage of medications at \$0 cost share is dependent on the list of medications covered by the member’s drug formulary.</i></p>
