Benefit exclusions

Like any insurance, your critical illness policy does have exclusions. The list below provides common exclusions but isn't meant to be exhaustive of all exclusions or limitations that may be part of your policy. See your policy for full details. The policy may not cover covered conditions or loss caused or contributed to by:

- Suicide, attempted suicide, or any intentionally self-inflicted injury, while sane or insane
- Committing or attempting to commit a felony, participation in a felony, or committing a felony
- War or any act of war, declared or undeclared
- Participation in a riot, insurrection, or rebellion of any kind, active participation in a riot, insurrection, or rebellion, voluntary participation in a riot, insurrection, or rebellion, or participation in a riot or insurrection
- A covered condition sustained while residing outside the U.S., U.S. territories, Canada, or Mexico for more than 12 months

Benefits won't be payable if the insured person is incarcerated in any type of penal or detention facility. A benefit for heart attack or sudden cardiac arrest isn't payable if the event occurs during a medical procedure. This is an incomplete list of benefit exclusions. A complete list is included in the policy. State variations apply.
