

2025 Consumer Directed Healthcare (CDH) Preventive Medications - Standard Plus

This list provides examples of commonly prescribed preventive medications. It is not an all-inclusive list; however, many examples of the medications are listed in each category.

This list does not indicate coverage. Please check with your plan administrator and/or benefit information materials if you have questions on coverage. Your cost share will be determined by your plan's drug coverage and formulary plan.

Coverage prior to the deductible being met may not be provided for every strength or dosage form of a listed medication.

Please note: When feasible, brand names are shown in capitals in each category. If generic is available, it is listed in lowercase next to the brand name. If only generics are available (for example, brands are no longer available), they will only be listed in lowercase.
